SUMMARY

Over the past five years, I've been passionately immersed in the world of UI/UX design, crafting seamless web and mobile applications for diverse clients in the sports data, education and SaaS industry.

In my personal life I have always been passionate about hosting friends, cooking delicious food and making cocktails. I always look forward to travel, hike or do any kind of outdoor activities. On the day to day basis I spend my free time with watching sports, playing video games or doing game design.
